KOYYADA ROHITH

Cybersecurity Enthusiast | SOC & Network Security Learner

📧 koyyadarohith43@gmail.com | 📞 76609 22848 | 📍 Hyderabad, India

PROFESSIONAL SUMMARY

Cybersecurity enthusiast and Computer Science Engineering student currently pursuing B.Tech in CSE with strong interest in SOC operations, ethical hacking, networking, and threat monitoring. Familiar with packet analysis, Linux administration, network protocols, and security monitoring using tools like Wireshark and Kali Linux. Actively participating in internships and practical cybersecurity labs to build technical skills and industry exposure. A motivated a person who is interested in learning new technologies and improving knowledge day to day in this field.

TECHNICAL SKILLS

- SOC Operations
- Threat Monitoring
- Incident Analysis
- Network Security
- Packet Analysis
- Malware Analysis
- TCP/IP
- OSI Model
- DNS
- HTTP/HTTPS
- Linux basics
- Cryptography Basics
- VAPT Fundamentals
- Networking Fundamentals
- Basic Python

SOFT SKILLS

- Problem Solving
- Analytical Thinking
- Communication Skills
- Team Collaboration
- Quick Learning

TOOLS

- Wireshark
- Kali Linux
- Bettercap
- CyberChef
- VirtualBox
- VeraCrypt

PROFESSIONAL EXPERIENCE

Cyber Security Intern | Edufyi Tech Solutions **April 2026 - Present**

- Learned SOC workflows, cybersecurity operations, and threat monitoring concepts.
- Performed packet capture and traffic analysis using Wireshark.
- Worked on cybersecurity labs related to TCP/IP, DNS, HTTP/HTTPS, and protocol analysis.
- Practiced malware traffic investigation and suspicious activity detection through CyberDefenders labs.
- Gained exposure to incident analysis and security monitoring techniques.

Web Development Intern | Micro IT **May 2025 – June 2025**

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Improved debugging, front-end development, and problem-solving skills.
- Worked on website structure, interface design, and deployment basics.

PROJECTS

Startup Management & Collaboration Platform

- Developed a web-based platform for startup management and team collaboration.
- Implemented dashboards for Admin, Director, and Member roles.
- Added project tracking and task management features for better workflow management.

Network Traffic Analysis Using Wireshark

- Captured and analyzed network traffic using Wireshark.
- Identified protocols such as HTTP, HTTPS, DNS, and TCP.
- Applied packet filtering techniques to inspect and monitor network communication.

Multithreaded Web Server

- Developed a multithreaded web server capable of handling multiple client requests.
- Implemented concurrent request processing for improved performance.
- Gained practical experience with networking and multithreading concepts.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering **2024 – Present**
Aurora Higher Education and Research Academy, Uppal
CGPA: 7.5 – 8.0 Average (Till 2nd Year)

Intermediate – MPC **2022 – 2024**
NRI Junior College, SR Nagar
Percentage: 73%

SSC **2021 – 2022**
Castle Town High School, Rajeev Nagar
GPA: 8.3

CERTIFICATIONS & TRAINING

- Ethical Hacker – Cisco Networking Academy
- Programming Fundamentals using Python – Infosys Springboard
- Java Programming Fundamentals – Infosys Springboard
- Web Development Internship – Micro Information Technology Services
- Public Speaking Specialization – University of Washington (Coursera)

LANGUAGES

English, Telugu, Hindi, German (Basic)
